

42App Skills Mastery Checklist

Instructions: Answers can be found in the phx42 User Manual – phx42 App section. Place your initials next to each item. Record written responses where indicated. When complete, sign and date. Documentation remains on-site. Email mmunguia@ldartools.com if you would like a copy of the answer key.

Required tools: phx42, Android 5+ Handheld, 42App, and Wi-Fi connection.

Manual Calibration: Complete the second section ONLY if you are doing Manual Calibration rather than using an LDARtools SpanBox5.

	Task	Initial
1.	Where do you get the 42App?	
2.	If prompted, enable GPS/location services on the 42App.
