

May 4, 2018

To Our Valued Customers in China:

For a limited time, LDARtools is continuing to manufacture the phx21 in our Texas, USA facility. These units are available through certain distributors.

We appreciate our loyal customer base for the phx21 product line and look forward to serving everyone with the next generation: the phx42 which is also available at this time.

More information is available through your local distributor or our web site at www.ldartools.com.

Thank you for your continued and future business.

Sincerely,

Rex Moses
President/ CEO
LDARtools, Inc.
